IMPORTANT NOTICE

The colours in this guide are as close to the actual steel colours as the printing process allows and may vary from actual steel colour selected. If colour selection is critical please request a steel colour sample from your supplier. Powder coating is also an attractive option. Please seek advice and colour samples from your supplier.

DOMINATOR®

SELECTING THE RIGHT GARAGE DOOR FOR YOUR HOME

Dominator® has pioneered a new standard in garage door systems for over 20 years. This standard is proudly represented by our latest range of Dominator® garage doors and automatic openers. A range built on the premise of providing a product that is nothing less than the best, both in terms of quality and value.

When you choose Dominator®, you're selecting the best in design, features, style, warranty and service. With Dominator's® competitive price and quality we have become one of the leading brands in the Australasian market. Not only do we have all the products you need, there is also a network of over 40 Dominator® dealers ready to offer you reliable and professional advice backed by decades of expertise.

TYPES OF DOORS

All Dominator® garage doors can be automated for remote control operation, such as;

Roller Doors – A ribbed steel curtain that moves vertically in the opening rolling around a drum. Suitable for garages and sheds with plenty of headroom or where a traditional look is required.

Sectional Doors – Comprise of a number of rigid sections that are hinged together and move vertically in the opening, then horizontally along the ceiling. Generally used on new houses where a style or pattern is needed to match the style of the house. These doors can be made of steel, wood and other materials.

Tilt Doors – A one piece tilting panel, which moves up and out from a vertical position to a horizontal position. Appropriate for garages with the lowest possible headroom requirements.

TAILOR MADE vs STOCK STANDARD

Don't overlook the importance of a tailor made garage door. When a door is tailor made, your door is made for your house, so it fits perfectly. That is why it is essential that your Dominator® dealer visits your home to measure up the door opening, and any quotes offered over the phone should be treated with caution.

SAFETY & SECURITY

Dominator® believes the safety of your family and possessions is of utmost importance, which is why we offer a comprehensive choice of accessories from key ring remotes right up to automated gates and video door phone entry systems.

AUTOMATION

Dominator® automatic garage door openers not only provide the security and convenience of never having to leave your car but can also offer your garage internal light and incorporate overload and surge protection so they are reliable year after year. Ask your Dominator® dealer today about the best opener options for your existing or new garage door.

At Dominator®, we understand that choosing a garage door for your home is an important decision. A garage door can take up to half of your homes frontage, which has a major impact on the look of your home. That is why the nationwide Dominator® dealer network is available to help you select the best design, style, colour and door accessories for your new Dominator® garage door.

Whether you are building a new home or renovating your current one contact a Dominator® dealer near you by phoning 0800 DOMINATOR or visiting www.dominator.co.nz
